SUBJECT: AUTHORIZATION TO ADVERTISE FOR BIDS - ‘D’ STREET - HOCKETT STREET ALLEY RECONSTRUCTION PROJECT

SOURCE: Public Works Department - Engineering Division

COMMENT: The Plans and Project Manual have been prepared for the ‘D’ Street - Hockett Street Alley Reconstruction Project. The project consists of the reconstruction of the alley located between ‘D’ Street and Hockett Street from Putnam Avenue to Cleveland Avenue, and appurtenances. Deterioration and yearly flooding conditions have made this alley project a priority.

The Plans and Project Manual are available for review in the Public Works Department - Engineering Division.

The 2002/2003 Annual Budget contains $25,000 for Miscellaneous Alley Projects which staff plans to use for this project. Staff also plans to use an additional $10,000 of Local Transportation Funds from the Budget Adjustment due to cancellation of the Lime Street Project. The amendment of the budget, adding this $10,000, is a separate agenda item entitled Budget Adjustments for the 2002/03 fiscal year.

Recommendation: That City Council:

1. Approve the Plans and Project Manual; and

2. Authorize staff to advertise for bids on the project.
