SUBJECT: RESOLUTION APPROVING AMENDMENT 3 TO MEASURE R EXPENDITURE PLAN

SOURCE: Public Works Department - Engineering Division

COMMENT: The Measure R Expenditure Plan serves as a guide for the use of transportation funds that will be generated through the Tulare County half-cent transportation sales tax through 2037. The Expenditure Plan was developed by the Tulare County Association of Governments and its nine member agencies (Dinuba, Exeter, Farmersville, Lindsay, Porterville, Tulare, Visalia, Woodlake and the County of Tulare) and approved by the voters in November 2006. The Expenditure Plan represents diverse community interests and addresses major regional transportation needs in Tulare County through the year 2037. The Plan provides a detailed blueprint that will allow for the leveraging of state and federal funds through the revenues that will be received through Measure R. The Plan provides funds for regional road improvements, public transit, rehabilitation of existing roads, and other transportation programs that will improve mobility and air quality within the County and each of the cities.

Consensus on the amendment to the Measure R Expenditure Plan was discussed and developed at the March 2013 Tulare County City Managers and CAO meeting. The attachment to the Resolution is the result of the consensus effort. Further refinements were presented at the April board meeting and workshop. The attached documents provide a full description that Amendment No. 3 makes to the Measure R Expenditure Plan.

On May 20, 2013, action was taken by the Tulare County Transportation Authority (TCTA) to allow for the submittal of the third Measure R Expenditure Plan amendment to member agencies for their consideration and approval. All nine agencies are requested to present Amendment No. 3 to their respective Councils. Approval by a majority of the cities with a majority of the population along with the Board of Supervisors is required for the TCTA to approve Amendment No. 3.

RECOMMENDATION: That the City Council:

1. Affirm by Resolution all aspects of the attached amendments, Amendment No. 3, to the Measure R Expenditure Plan;

Item No. 23
2. Authorize the Mayor to sign the Resolution; and

3. Direct the City Clerk to transmit the executed Resolution to the attention of Ted Smalley, Tulare County Transportation Authority.

ATTACHMENTS:

1. Resolution submitting the draft Measure R Expenditure Plan Amendment No. 3 with attachment: Expenditure Plan Amendment No. 3 amendment requests and recommended changes

2. Expenditure Plan Amendment No. 3 Schedule

3. FINAL 2006 ½ Cent Transportation Sales Tax Measure EXPENDITURE Plan (Amendment No. 3)
RESOLUTION NO. ______

A RESOLUTION OF THE CITY COUNCIL
OF THE CITY OF PORTERVILLE
APPROVING AMENDMENT 3 TO THE
MEASURE R EXPENDITURE PLAN

WHEREAS, in November of 2006, the voters of Tulare County approved Measure R and the Measure R Expenditure Plan; and

WHEREAS, Measure R is a ½ cent sales tax that addresses the major regional, local and transit/bike/environmental transportation needs in Tulare County; and

WHEREAS, on an annual basis the Measure R Expenditure Plan is reviewed for possible amendments; and

WHEREAS, the attached Measure R Expenditure Plan Amendment No. 3 would create new funding allocations and amend necessary line item restrictions for specific projects.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Porterville approves the Measure R Expenditure Plan Amendment No. 3.

APPROVED AND ADOPTED this 18th day of June, 2013.

_________________________________________
Virginia R. Gurrola, Mayor

ATTEST:
John D. Lollis, City Clerk

_________________________________________
By Patrice Hildreth, Chief Deputy City Clerk
TO:          TCTA Board

FROM:        Ted Smalley, TCAG Executive Director
             Leslie Davis, TCAG Fiscal Manager

DATE:        May 24, 2013

SUBJECT:     Summary of 2013 Measure R Expenditure Plan Amendment Requests Approved by TCTA Board on May 20, 2013 for Agency Consideration

1. Request:  Add transit & bike/pedestrian funding as a result of projected revenues and expenditures

Requesting Agencies: All Member agencies

Discussion:  All agencies were invited to submit requests for additional transit, bike, and/or pedestrian funding. Based on the requests there is significant need to continue to improve or provide new transit, bicycle, and pedestrian transportation projects. Table 5a will be added to the Measure R Expenditure Plan titled “Summary of Transit/Bike/Environmental (Air Quality) Supplemental Funding”

For the Supplemental Funding projects the following conditions will be added to the Expenditure Plan:
- Projected revenues and expenditures for the duration of the measure are to be evaluated every two years in conjunction with the Strategic Work Plan.
- Supplemental Funding projects will be reduced proportionately among all agencies receiving Supplemental Funding based on the amount granted in the base year, in the event revenues are less than expected.
- Agencies with multiple Supplemental Funding project types (bike, pedestrian, and/or transit) can choose from which Transit/Bike/Environmental category(ies) the reduction will occur.
- In order to access Supplemental Funding, projects are required to be programmed in the current Strategic Work Plan.
- Supplemental transit funding may be requested on an annual basis or accumulated based on the annual allotment.

TCAG Staff Recommendation: Support with conditions above limiting the amount to be programmed to not exceed $15,000,000
2. Request: Analysis be conducted of Transit/Bike/Environmental Program Projects identified in Table 5, to determine their feasibility and reasonableness to be delivered. Specifically, the K Road to Exeter Bike Path Project ($16,000,000) should be reviewed within five years and if determined infeasible or unwarranted, one-half of the identified funding made available to member agencies for transit use and remaining amount be made available for re-programming.

Requesting Agencies: County of Tulare

- Discussion: Establishing a process for future conditions in which a project is determined to not be feasible or unwarranted would eliminate the need for additional Expenditure Plan Amendments.

The following language is proposed as an amendment to the Measure R Expenditure Plan as Note 18:

"If a project within the Transit/Bike/Environmental Program on Table 5 is determined to be infeasible or unwarranted during the 30 year life of Measure R, one-half of the identified funding would be subject to reprogramming based on current population. Unwarranted or Infeasible determination requires agreement with agencies in which the project is located. The second half of the funding would not be distributed until a determination is made that 75% of bike/ped projects and 50% of transit projects have been funded. Replacement of projects in excess of $5,000,000 will require an Expenditure Plan Amendment."

In addition, staff would:
1. Present a TCTA Board requirement (by resolution) to complete the feasibility analysis with the 2016 Strategic Work Plan on TCTA Board requested projects.
2. Develop procedures for TCTA Board approval prior to the 2016 Strategic Work Plan that define the process for determining whether a project is infeasible or unwarranted.

TCAG Staff Recommendation: Support inclusion of Note 18 and additional recommendations

3. Request: An incentive of 25% of the amount of a federal discretionary “Measure R” grant awarded to a member agency be given to that member agency to encourage agencies to apply for and use federal grants to construct Measure R projects.

Requesting Agencies: City of Visalia/County of Tulare

- Discussion: Establishing an incentive for obtaining federal funds from certain funding categories (specifically CMAQ & TE/TAP) to construct or fund Measure R projects will help ensure the delivery and possibly early delivery of transit, bike, and pedestrian program projects. However, the incentive program must be financially feasible. An incentive of 10% is far more reasonable.

The following language is proposed as an amendment to the Measure R Expenditure Plan as Note 19:
"For Transit/Bike/Pedestrian Program projects shown on Table 5 and 5a, obtaining funding or grants is encouraged. For every dollar of Measure R sales tax funding saved by an agency through obtaining TCTA Board approved outside grants, 10% will be provided to that agency for an Air Quality Program. The list of grant categories that are applicable for the 10% incentive include: CMAQ, TEA, and FTA competitive grants or other state/federal grant approved by TCAG/TCTA). The TCTA Board will have authority to modify, change, add, or delete project grant categories eligible for the 10% incentive at a regularly scheduled TCTA Board meeting by resolution. The TCTA Board will also have authority to increase or decrease the incentive percentage at a regularly scheduled TCTA Board meeting by resolution, with the understanding that any incentive grant already awarded under this incentive provision will be grandfathered into the existing program."

In addition, staff would:
1. Present a TCTA Board resolution to set the categories of 10% incentive program.
2. Present a TCTA Board resolution to set the incentive at 25% for 5 years starting July 1, 2013.

TCAG Staff Recommendation: Support inclusion of Note 19 and additional recommendations

4. Request: The Woodlake Area Mitigation Banking Program be renamed Woodlake Transportation Mitigation Program

Requesting Agencies: City of Woodlake

- Discussion: In 2008 it was determined that the Woodlake area was not suitable for mitigation banking. A change is necessary to allow for flexibility for the use of funds. For example, the change in description would allow for the City of Woodlake to work with the California Resources Agency and Caltrans for an Environmental Enhancement and Mitigation Program grant.

Make the following change on Table 5 of the Measure R Expenditure Plan:

The Woodlake Area Mitigation Banking Program be renamed Woodlake Transportation Mitigation Program

The following language is proposed as an amendment to the Measure R Expenditure Plan as Note 20:

“For the Woodlake Transportation Mitigation Program, funds may be used for the following:

- Landscaping and Forestry projects designed to offset vehicular emissions of carbon dioxide through the planting of trees and other suitable plants citywide.
- Resource Lands projects - the acquisition, restoration, or enhancement of resource lands (watersheds, wildlife habitat, wetlands, forests, or other significant natural areas) to mitigate the loss of or detriment to such lands within or near the right of way for transportation improvements.
- Roadside Recreation projects provide for the acquisition and/or development of roadside recreational opportunities.”

TCAG Staff Recommendation: Support
5. **Request:** Flexibility in funding interchange and over-crossing projects along the State Route 198 corridor in order to maximize effective, efficient use of funds and ensure timely project completion.

**Requesting Agencies:** City of Visalia

- **Discussion:** The City of Visalia has a number of complex regional projects along the SR-198 corridor. Planning and constructing regional projects one at a time is not cost effective and could lead to unnecessary and/or temporary improvements over the life of Measure R. The City of Visalia has been working on a comprehensive corridor plan. However, to implement, there needs to be flexibility of Measure R funds for the corridor.

The following language is proposed as an amendment to the Measure R Expenditure Plan as Note 21:

“For the City of Visalia SR-198 corridor projects shown in Table 2, financial flexibility between projects is allowed subject to TCTA board approval. Flexibility may include the addition or substitution of different interchanges and over-crossing priorities. The City of Visalia must submit a City Council approved Corridor Plan that includes at a minimum: the priority of projects, estimated planning-level costs, and estimated schedules prior to authorization of funding for any of the projects. The corridor plan may be amended as necessary. Amendments to the corridor plan will require City Council approval. Amendments to the corridor plan that result in Measure R funding changes require TCTA Board approval.”

**TCAG Staff Recommendation:** Support with conditions above

6. **Request:** Flexibility in funding interchange and over-crossing projects along the State Route 190 and State Route 65 corridors in order to maximize effective, efficient use of funds and ensure timely project completion.

**Requesting Agencies:** City of Porterville

- **Discussion:** Similar to item 6, The City of Porterville has a number of complex regional projects along the SR-190 corridor. Planning and constructing regional projects one at a time is not cost effective and could lead to unnecessary and/or temporary improvements over the life of Measure R. The City of Porterville has already been working on a comprehensive corridor plan. However, to implement, there needs to be flexibility of Measure R funds for the corridor.

The following language is proposed as an amendment to the Measure R Expenditure Plan as Note 22:

“For the City of Porterville SR-190 and SR-65 corridor projects shown in Table 2, financial flexibility between projects is allowed subject to TCTA board approval. Flexibility may include the determination of different interchanges and over-crossing priorities. The City of Porterville must submit a City Council approved Corridor Plan that includes at a minimum: the priority of projects, estimated planning-level costs, and estimated schedules prior to authorization of funding for any of the projects. The corridor plan may be amended as necessary. Amendments to the corridor plan...”
will require City Council approval. Amendments to the corridor plan that result in Measure R funding changes require TCTA Board approval.

Make the following change on Table 2 of the Measure R Expenditure Plan,

Change the limits of the SR-190 corridor from “SR-99 to SR-65” to “SR-99 to Road 284”

TCAG Staff Recommendation: Support with conditions above

7. Request: Clarify that the programmed Farmersville Boulevard/State Route 198 interchange project extends to Walnut Avenue for road capacity/widening and to Visalia Road for non-motorized improvements.

Requesting Agencies: City of Farmersville

Discussion: The City of Farmersville has been working on a comprehensive plan to improve the interchange along with Farmersville Boulevard Corridor improvements. The City has been evaluating the use of round-a-bouts that could save millions of Measure R funding. The project clarification will provide the opportunity for Farmersville to complete the transportation system around the interchange area.

The following language is proposed as an amendment to the Measure R Expenditure Plan as Note 23:

“For the City of Farmersville, Farmersville Blvd./SR-198 project on Table 2, the project is defined to include: the extension/widening of Farmersville Blvd from SR-198 to Walnut Avenue and to include non-motorized transportation improvements to Visalia Road. The reduction of the original project from 30 million to $25 million is a reduction to the Regional Program.”

Make the following change on Table 2 of the Measure R Expenditure Plan:

Reduce the Farmersville Blvd/SR-198 project from $30 million to $25 million.

TCAG Staff Recommendation: Support inclusion of Note 23

8. Request: Administrative Changes

Requesting Agencies: TCAG Staff/Varies

Discussion: There are a few items with changes that provide clarification or consistency

a. Use of the Term “Air Quality Program” in addition to Transit/Bike/Environmental Projects Program
b. Consistency of the terms “service expansion” and “route expansion” (use only Service Expansion)
c. Clarification of the Member Agencies “bike fund program” to “bike/ped fund program”
d. Use of the Term “Administration and Planning” as an alternate to “Administration”
e. Consistency of the terms “bike/ped improvements” for member agencies without specific bike/bike projects on Tables 5 and 5a
f. For the Regional Project “Visalia Signals (7)” change to “Visalia Signals”
g. For the Regional Project “Rural Signals (8)” change to “Rural Signals”

TCAG Staff Recommendation: Support

9. Request: The Measure R Expenditure Plan page ten, table five, lists nine specific bike/pedestrian projects for the City of Visalia (Attachment A). City of Visalia wants to include in amendment three a request to clarify the City’s request for funding flexibility to utilize Measure R on other bike/pedestrian projects that are not specifically listed in the expenditure plan.

Requesting Agencies: City of Visalia

- **Discussion:** Sentence three of the “Other Guidelines” item 16 on page 19 (Attachment B) is amended for enhanced clarification by removing “other” and replacing “City of Visalia” with “City Council” and adding “Class One” in front of bike/pedestrian projects.

The following language is proposed as an amendment to Note 16 in the measure R Expenditure Plan:

“For the City of Visalia a Bike/Pedestrian Fund will be established for cost savings realized or projected to be realized from any of the nine projects. The City of Visalia may use the cost savings for City Council approved City of Visalia Class One Bike/Pedestrian Projects. Additional projects may be added up to the amount of the fund once all nine projects have been completed or are projected to be fully funded.”

TCAG Staff Recommendation: Support revision to note 16

Tulare County Association of Governments
Introduction

A Tulare County 1/2 Cent Transportation Sales Tax Expenditure Plan was prepared to:

Guide more than $652 million in transportation fund expenditures generated through the approval of a Tulare County’s half-cent transportation sales tax over the next 30 years, if approved by voters in the November 2006 election.

The Expenditure Plan, developed by the Tulare County Association of Governments (TCAG) and nine member agencies (Dinuba, Exeter, Farmersville, Lindsay, Porterville, Tulare, Visalia, Woodlake and the County of Tulare) representing diverse community interests, will address major regional transportation needs in Tulare County through the Year 2037 with the initiation of a ½ cent sales tax. TCAG considered established regional needs, projects identified by voters and input from all of the city/County member agencies. To ensure the Plan addressed transportation needs of all County residents, the Tulare County Association of Governments:

• Adhered to requirements contained in the Public Utilities Code 180000 et seq.;
• Reviewed other transportation sales tax measure programs recently passed in other counties (best practices review); and
• Reviewed established transportation needs in Tulare County.

Overview - Expenditure Plan: Where the money will go

Figure 1 provides an overview of the proposed Expenditure Plan that outlines where the funds will be spent and what categories of projects will be funded. The funding categories include Regional Projects, Local Projects, Transit/Bicycle/Environmental (Air Quality) and Administration and Planning. The formulas and breakdown of the expenditures were approved by the Tulare County Association of Governments. The proposed 30-year Transportation Measure is expected to generate a total of $652 million. Half of this amount is allocated for Regional Projects. The Regional projects are established from the adopted Regional
Transportation Plan (RTP) approved by all member agencies in Tulare County. The projects within the RTP were selected through a process that evaluated safety, performance measures and cost effectiveness. The Regional Transportation Plan is updated every two years with 25 years of transportation projects. Many of the projects provide benefits for multiple jurisdictions such as interchange improvements, regional widening projects and environmental mitigation measures.

Referencing Figure 1, the allocations consider the many diversified transportation needs of Tulare County and have the following components, as shown:

- 35% of the expected Transportation Measure funds are allocated to "Local Programs". Due to the diverse needs of the cities and the County, the Local Programs category was created. The Local Programs category allows each of the member agencies to develop a priority list of projects based on community needs. This allows each jurisdiction, flexibility to determine local needs. This category will allow funding for projects ranging from "pot-hole repair", road rehabilitation and freeway interchange improvements.
- 14% of the funds are directed to Transit, Bike/Pedestrian and Environmental (Air Quality) projects. The program contains important projects to link the regional bike systems, provide increased transit service and an investment in environmental mitigation.
- The remaining 1% of the total expected Transportation Measure funding is directed to program implementation activities.

Details regarding the implementation of each of the programs are provided in Appendix A and B.

**Responding to Public Needs**

Two-thirds (67%) voter approval is necessary to pass the Transportation Measure in November 2006. In order to ensure that Tulare County Association of Governments is on target with this Expenditure Plan, voters and community residents were initially surveyed to determine support for a new Transportation Measure. The Voters of Tulare County responded with strong support to impose a sales tax which would lead to transportation improvements in Tulare County.

Meeting the needs of Tulare County residents requires leveraging State and Federal expenditures with local resources. Even with passage of the Measure there will not be enough funding available to address the more than $1.5 billion in transportation needs. The Transportation Measure will generate slightly more than $652 million over the next 30 years to address a portion of this need. Therefore leveraging additional federal and state dollars, beyond what the region expects, is critical. Most State and Federal grants require a match. Agencies that pass transportation sales taxes are referred to as "Self-Help" and can generate the revenues for a match. Similar measures throughout the Valley and California have been very successful in this regard. Such measures have been viewed as the most important transportation programs ever approved by voters in those counties. Tulare County needs to become a "Self-Help" County.

The cities, the County of Tulare, and T-CAG worked together to develop the Expenditure plan categories of funding, the list of regional projects, list of transit/bike/environmental projects and other key components. Regional Projects were first based on the adopted Transportation Plan approved by all agencies. A list of other regional projects was prepared that could be funded if additional revenues were received. All of the Cities and County worked together to develop the Regional Program distribution. In response to the public survey the cities and the County developed a list of bike, transit, and environmental projects.
Annual Audit of Transportation Measure Programs

The Transportation Measure expenditures and accounts of the local agencies and the Authority will be audited on an annual basis by an independent audit firm retained by Tulare County Association of Governments. Appendix A provides additional detail regarding the Transportation Measure audit process.

Citizen Oversight

To inform the public and to ensure that the Transportation Measure revenues and expenditures are spent as promised to the public, a Citizens' Oversight Committee would be formed by TCAG as part of the new Transportation Measure. Details regarding the Committee are provided in Appendix C.

Anticipated Measure Revenues

If voters approve the Transportation Measure on November 7, 2006, they will allow TCAG to impose a ½ cent retail transaction and use tax for 30 years (between April 1, 2007 and March 31, 2037). The Transportation Measure Sales Tax will:

Provide $652.8 million in new revenues for transportation improvements according to financial projections through the year 2037.

This estimate considers current sales tax receipts (with no growth rate in sales tax proceeds) through March 2037. Since the project funding is shown in current dollars, the projected revenues are shown in current dollars. The allocation of projected sales tax revenues to specific types of transportation funding programs and improvement projects is described in the following sections of this Expenditure Plan. A Strategic/Work Plan detailing current transportation projects will be updated every two (2) years to adjust the projection of sales tax receipts, ensuring that the projections are consistent with future expenditures and promises made in this initial Expenditure Plan. TCAG will have the option of issuing bonds to deliver Transportation Measure projects and programs contained in this Expenditure Plan to reduce project costs by delivering them earlier.

Road Map for the Work Plan: What We Will Do

Through many weeks of intense discussion and hard work, the following Transportation Measure funding program commitments were developed by the Tulare County Association of Governments and member agencies. TCAG realized that providing funds for all modes of transportation would meet the quality of life intent of the new Transportation Measure. This would in turn enable agencies within Tulare County to address the needs of residents, businesses, and major industries over the 30-year life of the Transportation Measure. The Expenditure Plan will:

Provide funds for regional road improvements, public transit, rehabilitate existing roads and other transportation programs that improve mobility and air quality within the County and each of the cities.

Expenditure Plan programs are detailed in Tables 1 through 4. Implementing Guidelines for each the four (4) Expenditure programs described on the next page are contained in Appendix B.
REGIONAL PROJECTS (Regional Transportation Program) - $326.4 million or 50%.

Authorizes major new projects to:
- Improve freeway interchanges
- Add additional lanes
- Increase safety
- Improve and reconstruct major commute corridors

These projects provide for the movement of goods, services, and people through Tulare County. Major highlights of this Program include the funding of Regional projects through out the County. There are two phases. Phase 1 contains projects planned to be funded in the first 15 years and phase 2 are projects expected to be funded in years 16 through 30. A map showing the regional Projects for Phase 1 may be found on Figure 2.

Funds can be used for all phases of project development and implementation. Projects in both Phase 1 and Phase 2 are expected to be completed within the life of the Transportation Measure. This funding program requires matching funds from the State Transportation Improvement Program (STIP) administered locally through TCAG. If funding is received beyond revenue projections in the first 15 years, projects from the Phase 2 list would be advanced.

LOCAL TRANSPORTATION PROGRAM - $228.4 million or 35%.

The goal is to improve each individual city's and the County's local transportation systems.

$35% or $7.6 million a year has been guaranteed for local determined projects. Each City and the County will receive funding based on a formula using population, maintained miles, and vehicles miles traveled. The funding will help cities and the County to meet scheduled maintenance needs and to rehabilitate their aging transportation systems.

Potential uses include:
- Pothole repair
- Repave streets
- Bridge repair or replacement
- Traffic signals
- Add additional lanes to existing streets and roads
- Improve sidewalks
- Separate street traffic from rail traffic

The local agencies in Tulare County know what their needs are and how best to address those needs. Funds can be used for all phases of project development and implementation. The County of Tulare would use the Local Transportation Program funds to create a "Farm to Market" program. Specific Local Transportation Program highlights and implementing guidelines are described in Appendix B.

TRANSIT/BIKES/ENVIRONMENTAL MITIGATION (AIR QUALITY) PROGRAM (Multi-Modal Transportation Program) - $91.3 million or 14%.

The goal of this program is to expand or enhance public transit programs that address the transit dependent population, improve mobility through the construction of bike lanes and have a demonstrated ability to get people out of their cars and improve air quality and environment. This funding program requires matching funds from the Congestion Mitigation and Air Quality (CMAQ) and Transportation Enhancement (TE) Programs administered locally through TCAG. To accomplish this important goal:

Funding is provided to transit agencies within the County to expand transit services. Funding would be provided for regional bike routes throughout the County. Other uses include:
New routes to enhance existing transit service  
Low emission buses  
Night and weekend service  
Bus shelters and other capital improvements  
Safer access to public transit services  
Regional bike routes  
Environmental Mitigation  
Preliminary Light Rail investment

Specific Transit Enhancement Program highlights and implementing guidelines are also described in Appendix B.

ADMINISTRATION AND PLANNING PROGRAM - $6.5 million or 1%.
Transportation Measure funding is provided to TCAG to:
  Prepare Strategic/Work Plan updates
  Develop funding allocation requirements
  Administer and conduct specified activities identified in the other three (3) programs described above
  Prepare Annual Transportation Measure Report and contract for an independent audit

Expenditure Plan Projects

This section identifies priority regional street and highway improvement projects to be implemented over the life of the Measure or by the year 2037. The projects would be funded with Measure, State Transportation Improvement Program (STIP), and/or other transportation funding.

Phase 1 capacity increasing street and road projects to be addressed in this Program are included in Table 1 and graphically displayed in Figure 2. Phase 2 projects are included in Table 2. Phase 1 projects are projected for funding for the first 15 years of the Measure and Phase 2 projects are projected to be funded in years 16 through 30. These projects will be funded using:

- Measure funding (approximately $324 million).
- A portion of State Transportation Improvement Program (STIP) funding expected over the 30-year Measure or approximately $567 million. (conservatively estimated based on recent state funding history)
- Other sources including local contributions totaling $2.9 million.

These funding sources together result in slightly more than $903 million available for Phase 1 and Phase 2 Regional projects. Phase 2 projects are considered for advancement if additional funding is available and the projects are amended in to the current Regional Transportation Plan. During preparation of the biennial Strategic/Work Plan Updates, TCAG will develop a detailed improvement program that specifies the timing and delivery of projects or funding order considering project cost benefit, project readiness, and funding availability. A description of funding commitments and implementing guidelines for the Regional Program are provided in Appendix B.

</table>

Notes:
1. The projects are not listed by priority
2. For Bike/ped Projects, the "next nine years" are: FY 13/14-21/22

For the Supplemental Funding projects the following conditions apply:
- Projected revenues and expenditures for the duration of the measure are to be evaluated every two years in conjunction with the Strategic Work Plan.
- Supplemental Funding projects will be reduced proportionately among all agencies receiving Supplemental Funding based on the amount granted in the base year, in the event revenues are less than expected.
- Agencies with multiple Supplemental Funding project types (bike, pedestrian, and/or transit) can choose from which Transit/Bike/Environmental category(ies) the reduction will occur.
- In order to access Supplemental Funding, projects are required to be programmed in the current Strategic Work Plan.
- Supplemental transit funding may be requested on an annual basis or accumulated based on the annual allotment.
Project Commitments – Other Programs

In addition to the Regional Program of projects, the Transportation Measure will provide additional funding for a wide range of projects determined based on agency need. Table 3 shows the projected revenue distribution for the Local Programs. Each Agency will have different types of transportation projects. Examples of projects would include “pot-hole” repair, road rehabilitation, adding travel lanes, interchange improvements and other transportation related projects.

The County of Tulare will use the Local Program funding to create a “Farm to Market” program and for other road improvements to existing, community, local unincorporated roads. Figure 3 is a map showing potential or candidate projects for road rehabilitation. The projects are geographically distributed to all parts of the County. The map is shown for illustrative purposes. The County of Tulare will also create a “Local Community Road Improvement Program.” The Local Community Road Improvement Program would provide funding for transportation improvements in unincorporated communities. A partial list of the communities is shown below:

- Alpaugh
- Cutler-Orosi
- Ducor
- Earlimart
- East Orosi
- East Porterville
- Goshen
- Ivanhoe
- Lemon Cove
- London
- Pixley
- Poplar/Cotton Center
- Richgrove
- Other smaller communities such as Allensworth, Oak Ranch, and Waukena
- Strathmore
- Terra Berra
- Tipton
- Traver
- Woodville

The other projects the County may potentially use the Local Program funding for include: *“Pot-hole” repair, bridge repair, installation of traffic signals and transportation safety projects. The County will evaluate annually the Local Program funded projects and prioritize based on local needs.

The City of Visalia would use the Local Program funding provided through a transportation sales tax augmentation to implement the City’s circulation element, and, at Council discretion, may use some of the funds to conduct on-going street maintenance.

Exactly how the City would use the funds could depend on the implementation policies of the tax including but not limited to the amount and rate of project funds generated by the tax, the criteria and priorities used to select the Tier II projects to be funded by the project portion of the sales tax, the financing options allowable under the provisions of the sales tax program, the reimbursement policies of the sales tax program, the availability of grants, bond funds, matching funds, private sector participation, federal earmarks and other types of available funding, what the impact such new monies will have on project prioritization, how cost overruns and revenue shortfalls will be addressed, how projects that impact state highways and/or other jurisdictions will be addressed through the implementation plan, and other factors yet to be determined.

Visalia’s share of the Local Program funds could yield $49.1 million in current dollars. The projects that would assist with the implementation of the City of Visalia’s circulation element and therefore could be funded by the Local Program portion of the tax could include, some, but not all of the following:

*Signal Light Synchronization ($9.6 million, est.)
*Interchange improvements at Lovers Lane and State Highway 198 ($18.5 million, est.)
*Interchange improvements at Shirk and State Highway 198 ($9 million, est.)
*Interchange improvements at Akers and State Highway 198 ($1.5 million, est.)
*Interchange improvements at Downtown Visalia (State Highway 63) and State Highway 198 ($20 million, est.)
*Street maintenance (Est. $500,000/annually over 30 years or $15 million)

Should additional monies become available, or if funding for the above projects comes from another source, some of the following elements of the City of Visalia’s transportation system could be funded; however, there is not expected to be enough money from the sales tax augmentation Local Program funds to pay for these critical needs:

*New interchange at Road 148 and State Highway 198 ($25 million, est.)
* Santa Fe Street from Caldwell Avenue to Riggin Avenue, including overcrossing ($12.6 million)
* Overcrossing improvements at Ben Maddox and State Highway 198 ($2.8 million, est.)
* Overcrossing improvements at McAuliff and State Highway 198 ($14 million est.)
* Shirk Street improvements & widening from Highway 198 to Riggin ($9 million)
* Caldwell widening from State Route 99 to Mooney Blvd and Santa Fe Street to Road 156 ($12.6 million)
* Goshen Avenue realignment to intersect at Lovers Lane and Mill Creek Parkway ($4 million)

(All estimates are in current dollars; estimated figures noted are the unfunded portions of the projects after the 2007/08 fiscal year.)

The City of Farmersville candidate projects include: traffic signal and intersection improvements to the intersections of Walnut & Freedom Drive and Farmersville & Noble Drive. Other potential uses for Local Program funding in Farmersville include street reconstruction and overlay projects. The City will evaluate annually the Local Program funded projects and prioritize based on local needs.

The City of Exeter candidate projects include: road widening with curb and gutter to Filbert Street, Glaze Street, and 3rd Street. The City will evaluate annually the Local Program funded projects and prioritize based on local needs.

Other Tulare County cities would have candidate projects that could include "pot-hole" repair, road rehabilitation, adding travel lanes, interchange improvements and other transportation related projects. The cities will evaluate annually the Local Program funded projects and prioritize based on local needs.

Table 4 provides a list of multi-modal transportation projects. Many of these projects will be identified and implemented by the local agencies to address specific needs or will be developed in accordance with implementing guidelines included in Appendix B. Examples include: Mass Transit Improvements, regional Bike trails, and contributions to environmental banking.

For Further Information:

Contact the Tulare County Association of Governments to inquire about the Measure process, discuss the candidate projects and programs contained in this Plan, or to inquire about the next steps in the Measure process.

APPENDICES
Appendix A - Plan Administration

Governing Board and Organizational Structure
A description of the Tulare County Association of Governments and its organizational structure related to the sales tax follows. The structure is consistent with the enabling legislation.

Tulare County Transportation Authority Structure under the Measure Program
The Tulare County Association of Governments (TCAG) will be the Tulare County Transportation Authority and administer the Measure Program in compliance with Public Utilities Code PUC 180000 et seq. If the Measure is approved by Tulare County voters in November 2006, the Authority will be responsible for administering the Measure Programs in accordance with plans and programs outlined in this and subsequent updates of this Plan. In addition, this Plan includes provision for a Citizens' Oversight Committee. Details regarding the Committee are contained in Appendix C. The Strategic/Work Plan will continue to be prepared by TCAG and approved by its Policy Board and by the Authority.

PUC 180000 includes provisions regarding the number of members on the Authority Board. Specifically, the Authority will be represented by thirteen (13) members including:
- Five (5) members of the Board of Supervisors
- One (1) member representing each of the eight cities in Tulare County: Dinuba, Exeter, Farmersville, Lindsay, Porterville, Tulare, Visalia and Woodlake consisting of members of the city council appointed by the city council

The three (3) at-large members of TCAG will not participate as members of the Authority in accordance with the intent of PUC 180051. Alternates to the regular members of the authority may participate in accordance with the TCAG By-Laws.

Plan Update, Approval Process, and Expenditure Plan Amendments

Plan Review and approval process
There are three primary reports/plans that are referenced as follows:
1. The Expenditure Plan – The Expenditure Plan is approved by the voters and may be amended once a year as outlined below.
2. The Annual report – The Annual report is prepared each year by the Citizen's Oversight Committee to provide review how sales tax receipts are being spent and publicize the results.
3. Bi-Annual Strategic/Work Plan – Prepared every two years to outline project expenditures. The Strategic Plan will be timed to coincide with the development of the Bi-annual State Transportation Improvement Program development.

In compliance with schedules mandated in federal and state law, TCAG regularly prepares a new long-range transportation plan (RTP) that updates and renews a list of candidate projects for all transportation modes (streets, highways, public transportation, bikeways, aviation, etc.). If funds are available for any projects beyond those now listed Table 1 in this Expenditure Plan, they will be drawn from that list. TCAG will have the option of issuing bonds to deliver Measure projects and programs contained in this Expenditure Plan to reduce project costs by delivering them earlier.

All updates of the Expenditure Plan will be subject to public review and public hearings. While these candidate projects may change and priorities for funding may occur, there are more than enough project needs within the County to be addressed using all types of funding, including Measure funds. It will be vital during development of each Expenditure Plan Update to consider financing all transportation modes in order to insure a balanced and efficient transportation system. All of the projects and programs included in this Expenditure Plan are considered essential to meet the transportation needs of Tulare County.
Amendments to the Expenditure Plan

The TCAG Board may annually review and propose amendments to the Expenditure Plan to provide for the use of additional Federal, State and local funds, to account for unexpected revenues, or to take into consideration unforeseen circumstances. In order to react to changes in funding and/or priorities, an amendment to the plan can be proposed. Amendments will require the same voting requirements that TCAG used to adopt the original Expenditure Plan.

Bi-Annual Strategic/Work Plan
The following steps will be taken by TCAG to prepare and adopt this and future Strategic Plan/biennial updates of the Transportation Measure Strategic/Work Plan. This will include a financial plan that coincides with the development of the State Transportation Improvement Program (STIP).
- TCAG staff working with member agencies and affected stakeholders will develop the Draft Strategic/Work Plan, and will update it every two years
- The TCAG Policy Board receives the Draft Strategic/Work Plan and its updates and schedules public hearings to review the Plan
- The TCAG Policy Board adopts the Strategic/Work Plan

Independent Financial Audits

If the Measure is approved by the voters, TCAG would conduct independent financial audits consistent with PUC 180000 et seq.

Implementing Guidelines

Administration and Planning: - 1% of the Measure

There are a number of processes that TCAG must also perform to support the Measure Program including maintenance of the Expenditure Plan and development of requirements associated with:
- Each of the proposed allocation programs
- The identification and prioritization of projects

It is recommended that TCAG be allocated 1% of sales tax revenue to address important activities. Activities of TCAG are described below:
- Prepare Annual Work Program and Budget
- Develop the Allocation Program requirements including focused studies needed to implement Measure programs
- Prepare the Strategic/Work Plan every two years
- Develop the priority list of regional capacity increasing and rehabilitation projects
- Conduct an independent audit of Measure programs and funds on an annual basis
- Conduct on-going public outreach program
- Issue bonds to deliver Measure projects and programs contained in this Strategic/Work Plan to save project costs by delivering them earlier
- Allocate Measure proceeds to the local jurisdictions consistent with the Program requirements
**Bonding and Financing**

TCAG will have the authority to bond and use other financing mechanisms, including, when more advantageous economically, loans from banks and other financial lending institutions, for the purposes of expediting the delivery of transportation projects and programs and to provide economies of scale. Bonds or loans, if issued, will be paid with the proceeds of the transportation sales tax. The costs and risks associated with the bonding and loans will be presented in Strategic/Work Plan, and will be subject to public comment before any bond sale or loan application is approved.

TCAG will also be able to use other means to accelerate the delivery of projects and programs, including partnering with other COGS, the State of California, the Federal Government, and other government agencies, federal authorization funds, federal earmarks, partnering with private entities, seeking outside grants and matching or leveraging tax receipts to the maximum extent possible.

Local agencies may choose to advance funds for a project, either a project specified in the plan, or a project for which they plan to use their local agency Local Program funds, and to receive reimbursement for that advancement in accordance with the plan. The fund advancement and reimbursement projections must be approved by TCAG in accordance with the voting requirements, prior to proceeding with the project.

**Contingency Fund**

TCAG will also have the ability to set aside a contingency fund of up to 5% of the annual receipts from the tax.

Revenues to fund the contingency may be accumulated through the following: revenues exceed projections or a project’s cost is lower than anticipated resulting in excess funds.

In the event that actual revenues in any given year are less than the budgeted revenues, the TCAG Board may use the contingency fund to make up the difference between the budgeted revenues and the actual revenues. The contingency fund may also be used to fund projects where the actual cost exceeds projections.

**Accountability**

All business of TCAG will be conducted in an open and public meeting process in accordance with the California Brown Act. TCAG will approve all spending plans described in this document and will ensure that adequate public involvement has been included in the preparation of all spending plans. TCAG will be required to hire an independent auditor who will annually audit all sales tax expenditures, ensuring that expenditures are made in accordance with the plan, and with prudent, established accounting regulations and practices.

**Other Guidelines**

This plan is guided by principles that ensure that the revenue generated by the transportation sales tax is spent in the most efficient and effective manner possible, consistent with the desires of the voters of Tulare County. The principles outlined in this section provide flexibility needed to address issues that may arise during the life of the plan.

1. TCAG will fund both regional and local projects, and will also provide funds to local agencies to address special and localized needs.

2. TCAG is charged with a fiduciary duty in administering the transportation sales tax proceeds in accordance with the applicable laws and this Expenditure Plan. Receipt of these tax proceeds may be subject to appropriate terms and conditions as determined by TCAG in its reasonable discretion, including, but not limited to, the right to require recipients to execute funding agreements and the right to audit recipients’ use of the tax proceeds.

3. The monies collected through TCAG shall be accounted for and invested separately, unless and until the funds are turned over to a local agency in accordance with the plan. At such time, the local agency shall keep a separate accounting of the monies and any and all expenditures to ensure that the monies are spent in accordance with the approved expenditure plan.
4. All meetings of TCAG will be conducted in public accordance to state law, through publicly noticed meetings. The annual budget of TCAG, annual work plan, biennial Strategic Work Plan, and annual report will all be prepared for public scrutiny. The interests of the public will further be protected by the Citizens’ Oversight Committee described in this Plan.

5. Under no circumstances may the proceeds of this transportation sales tax be applied to any purpose other than for transportation improvements benefiting Tulare County and its member agencies. The funds may not be used for any transportation projects or programs other than those specified in this Plan without an amendment of the Expenditure Plan.

6. Actual revenues may be higher or lower than expected in this Plan, due to changes in receipts and/or matching or leveraging capability. Estimates of actual revenue will be programmed annually by the TCAG during its annual budget process.

7. The actual requirements for funds in a specific program could be higher or lower than expected due to changes in funding outside of this transportation sales tax, or due to changes in project costs or feasibility. Should the need for funds for any program/project be less than the amount to be allocated by the sales tax, or should any project become infeasible for any reason, funds will first be considered for reprogramming to other programs or projects in the same urban area in accordance with voting described above at a noticed public hearing. Should the need for funds in the entire area be less than the amount to be allocated by the transportation sales tax, the TCAG Board may amend the Expenditure Plan to reallocate funds to the other projects following its procedures for a plan amendment.

8. All projects funded with these transportation sales tax funds will be required to complete appropriate California Environmental Quality Act (CEQA) and other environmental review as required.

9. Funds may be accumulated by TCAG or by recipient agencies over a period of time to pay for larger and long-term projects. All interest income generated by these proceeds will accrue to the specific fund/project intended. If accumulated for a general purpose, the proceeds will be used for the transportation purposes described in the Expenditure Plan.

10. TCAG will have the capability of loaning transportation sales tax receipts at prevailing interest rates to other member agencies for the implementation of needed transportation projects, provided that a guaranteed revenue stream is devoted to repay such a loan over a maximum amount of time, and provided that the loan will not interfere with the implementation of programs or projects defined in the Expenditure Plan. Loaning of funds requires TCAG Board approval.

11. Matching or leveraging of outside funding sources is strongly encouraged. Any additional transportation sales tax revenues made available through their replacement by matching funds will be spent based on the principles outlined previously in these guidelines. A member agency may elect to advance Tier I Regional Project using local funds. The agency would be eligible for repayment for the amount advanced (with no interest) subject to TCAG approval of the advancement and the year of reimbursement.

12. For Transit/Bike/Pedestrian projects shown on Table 5, obtaining outside funding or grants is encouraged. For every dollar of sales tax funding saved by an agency through obtaining outside grants, 50% will be provided to that agency's Local Program fund. (Excludes: CMAQ, TEA, FTA 5307, and FTA 5311 or other state/federal grant administered through TCAG). The other 50% would be placed in the Local Program fund to be distributed among all agencies. Examples of eligible grants include but are not limited to: State of California Bike Lane Account funding, Federal Recreation trials Program, and Federal Transit Administration new starts program.
13. For ‘Regional Projects’ shown on Tables 1 and 2, obtaining third party grants by member agencies is encouraged so as to leverage sales tax revenue and expedite completion of projects. All funds generated by such third party grants solicited for specific regional projects shall be applied solely to those projects. TCAG will give preference to use the savings resulting from said grants toward other regional projects which primarily benefit the member agency responsible for obtaining said grants. Grants, as applied to the foregoing, do not include STIP funds.

14. New incorporated cities or new transit agencies or services that come into existence in Tulare County during the life of the Expenditure Plan could be considered as eligible recipients of funds through a Plan Amendment, and an additional position created on the governing board.

15. For Rail expenditures from the “Transit/Bike/Environmental Projects Program” funding may only be used for ROW acquisition and/or preservation of rail corridors. Preservation of rail corridors by purchase of existing fixtures includes but is not limited to railroad ties, ballast, tracks, and signals are permitted when anticipated commercial operation will result in preservation of the ROW. The purpose of the requirement is to ensure that real-property interest (long term-lease/easement) is maintained for rail use. The expenditure of Measure R funds shall not result in a commitment of additional funds. Prior to agency requesting rail funds from the “Transit/Bike/Environmental Projects Program,” a plan must be submitted that demonstrates the economic viability of the rail corridor for which the funding is proposed.

16. The Measure R Expenditure Plan on page 10 lists nine specific bike/pedestrian projects for the City of Visalia. A Visalia bike/pedestrian fund will be established for cost savings realized or projected to be realized from any of the nine projects. The City of Visalia may use the cost savings for City Council approved Class One Bike/Pedestrian Projects. Additional projects may be added up to the amount of the fund once all of the nine projects have been completed or fully funded.

17. In the event of an economic emergency, the Authority may waive the maintenance of effort requirements by a two-thirds (66.67% of the Authority Board membership) vote. An economic emergency may only be declared for up to one year at a time, and must be reauthorized if the emergency continues for more than a year. A fiscal emergency declaration must involve the entire County and cannot be declared for only some or a portion of the jurisdictions.

18. If a project within the Transit/Bike/Environmental (Air Quality) Program on Table 5 is determined to be infeasible or unwarranted during the 30 year life of Measure R, one-half of the identified funding would be subject to reprogramming based on current population. Unwarranted or Infeasible determination requires agreement with agencies in which the project is located. The second half of the funding would not be distributed until a determination is made that 75% of bike/ped projects and 50% of transit projects have been funded. Replacement of projects in excess of $5,000,000 will require an Expenditure Plan Amendment.

19. For Transit/Bike/Pedestrian Program projects shown on Table 5 and 5a, obtaining funding or grants is encouraged. For every dollar of Measure R sales tax funding saved by an agency through obtaining TCTA Board approved outside grants, 10% will be provided to that agency for an Air Quality Program project. The list of grant categories that are applicable for the 10% incentive include: CMAQ, TAP, and FTA competitive grants or other state/federal grant approved by TCAG/TCTA. The TCTA Board will have authority to modify, change, add, or delete project grant categories eligible for the 10% incentive at a regularly scheduled TCTA Board meeting by resolution. The TCTA Board will also have authority to increase or decrease the incentive percentage at a regularly scheduled TCTA Board meeting by resolution, with the understanding that any incentive grant already awarded under this incentive provision will be grandfathered into the existing program.
For the Woodlake Transportation Mitigation Program, funds may be used for the following:

- Landscaping and Forestry projects designed to offset vehicular emissions of carbon dioxide through the planting of trees and other suitable plants citywide.
- Resource Lands projects - the acquisition, restoration, or enhancement of resource lands (watersheds, wildlife habitat, wetlands, forests, or other significant natural areas) to mitigate the loss of or detriment to such lands within or near the right of way for transportation improvements.
- Roadside Recreation projects that provide for the acquisition and/or development of roadside recreational opportunities.

For the City of Visalia SR-198 corridor projects shown in Table 2, financial flexibility between projects is allowed subject to TCTA Board approval. Flexibility may include the addition or substitution of different interchanges and over-crossing priorities. The City of Visalia must submit a City Council approved Corridor Plan that includes at a minimum: the priority of projects, estimated planning-level costs, and estimated schedules prior to authorization of funding for any of the projects. The corridor plan may be amended as necessary. Amendments to the corridor plan will require City Council approval. Amendments to the corridor plan that result in Measure R funding changes require TCTA Board approval.

For the City of Porterville SR-190 and SR-65 corridor projects shown in Table 2, financial flexibility between projects is allowed subject to TCTA Board approval. Flexibility may include the determination of different interchanges and over-crossing priorities. The City of Porterville must submit a City Council approved Corridor Plan that includes at a minimum: the priority of projects, estimated planning-level costs, and estimated schedules prior to authorization of funding for any of the projects. The corridor plan may be amended as necessary. Amendments to the corridor plan will require City Council approval. Amendments to the corridor plan that result in Measure R funding changes require TCTA Board approval.

For the City of Farmersville, Farmersville Blvd./SR-198 project on Table 2, the project is defined to include: the extension/widening of Farmersville Blvd from SR-198 to Walnut Avenue and to include non-motorized transportation improvements to Visalia Road. The reduction of the original project from $30 million to $25 million is a reduction to the Regional Program.
Appendix B – Implementing Guidelines

The following Implementing Guidelines are intended to "guide" development and implementation of the measure program for Tulare County. Each of the three (3) transportation funding programs is described below. Implementing Guidelines for the fourth program (Administration/Planning Program) are described in Appendix A.

1. Regional Project Program (Regional Transportation Program)- 50% of the Measure

   The Expenditure objectives are to:
   - Provide additional funds to make up anticipated shortfalls to meet regional street and highway improvement needs
   - Leverage Local Program state and federal funding from the California Transportation Commission (CTC)
   - Accelerate delivery of street and highway projects that may otherwise be delayed because of other funding shortages

   The program would provide funds for:
   - Additional lane capacity on existing regional streets and highways
   - Major Interchange improvements
   - Other improvements which improve mobility performance on the regional system

   Eligible expenditures for Phase 1 and Phase 2 projects would include all recognized project phases including:
   - Planning and environmental analysis
   - Preliminary engineering
   - Design
   - Right-of-way acquisition and relocation
   - Utilities relocation
   - Construction & Construction Engineering

   In addition to Transportation Measure funds, the Regional Projects Program would require the partial allocation of State Transportation Improvement Program funds available to Tulare County to regional capacity increasing projects. These funding sources together result in slightly more than $903 million available for Phase 1 and Phase 2. Phase 2 projects are considered for advancement if additional funding is available and the projects are amended in to the current Regional Transportation Plan. During preparation of the biennial Strategic/Work Plan Updates, TCAG will develop a detailed improvement program that specifies the timing and delivery of projects or funding order considering project cost benefit, project readiness, and funding availability.
2. Local Transportation Program - 35% of the Measure
This program would augment:
- Existing local, state, and federal funds for local streets and roads
- Any other form of transportation that provides funding for transportation projects of significance to local agencies
- Local Transportation Impact Fees

The improvements in this category are not limited to just the concept of rehabilitation. The funding is available to all jurisdictions to address their respective needs. This program will provide "flexible funding" for:
- Meeting scheduled maintenance needs
- Rehabilitating the aging local system
- Pot hole repair
- Signals
- Safety Improvements
- Bridge replacement
- New local road capacity
- Maintenance and rehabilitation projects
- Separate street traffic from increasing rail traffic (railroad grade separations)
- Signal Synchronization
- Other Improvements directly or indirectly related to transportation

As with the Regional Projects Program, funds could be used for all needed phases of project development and implementation.

3. Transit/Bikes/Environmental (Air Quality) Program – 14% of Measure
The program would include funding augmentation to existing transit operators to maintain basic transit services to meet the needs of:
- Public transit
- Those who are unable to drive
- Those who choose an alternative to the use of private automobiles for work and shopping trips

The program includes funding for:
- Bicycle projects
- Pedestrian improvements
- Environmental Mitigation
- Light Rail

The Environmental Mitigation funds would be applied to an environmental mitigation bank that would encompass the projects and programs that may be funded with Measure assistance. This program would also reduce the time and significant delays associated with the current process of securing approval of affected resource agencies.

As with the Regional Projects Program, funds could be used for all needed phases of project development and implementation. In addition to Measure funds, the Regional Projects Program would require the partial allocation of Regional CMAQ/TE funding administered through TCAG. These funding sources together result in slightly more than $132 million available for Transit/Bikes/Environmental projects.
Appendix C – Citizens’ Oversight Committee

Committee Purpose

To provide input on implementation of the plan, and to advise the TCAG Board if and when the plan needs to be augmented and to ensure that the funds are being spent in accordance with the plan.

To inform the public and to ensure that the Transportation Measure (Measure) funding program revenues and expenditures are spent as promised to the public.

Administrative Issues

Committee Formation

- The Committee will be formed within six (6) months upon approval of the Measure by the voters of Tulare County in November 2006
- The Citizens’ Oversight Committee (Committee) shall not be amended out of the Expenditure Plan
- Meetings will commence when Measure revenues are recommended for expenditure; including Strategic/Work Plan updates

Selection and Duties of Committee Chair and Vice Chair

- The Committee shall select a Chair and Vice Chair from the members, each of whom shall serve a one (1) year term
- The duties of the Chair will be to call meetings, set agendas, and preside over meetings
- The duties of the Vice Chair will be to perform the same duties described above in the absence of the Chair

Committee Meetings

- The Committee will hold one formal meeting annually, with additional meetings scheduled as needed by the Committee.
- All Committee meetings must be held in compliance with the Brown Act
- All meetings will be conducted per “Robert’s Rules of Order”

Subcommittee Requirements

- Subcommittees: the Committee may elect to form subcommittees to perform specific parts of its purpose.
- All subcommittees shall have an odd number of members

Committee Membership, Selection, and Quorum

Membership & Selection

The Committee will be designed to reflect the diversity of the County. The Committee will consist of 16 members. Each organization represented on the Citizens’ Oversight Committee will nominate its representative; with final appointments approved by the governing board of the TCAG. The membership shall be as follows:

*One member will be appointed by each City and the County. (Total of 9)

*One representative from a major private sector Tulare County employer, nominated by the Tulare County Economic Development Corporation
*One representative from the building industry, nominated by the Tulare County Building Industry Association.

*One representative from the agriculture industry, nominated by the Tulare County Farm Bureau

*One representative from the Hispanic community, nominated by the Tulare Kings Hispanic Chamber of Commerce

*One representative from an advocacy group representing bicyclists and pedestrians, and/or transit.

*One member who is a professional in the field of audit, finance and/or budgeting with a minimum of five years in a relevant and senior decision-making position in the public or private sector.

*One representative from an environmental advocacy group

- In the case of the final three representatives, applications from citizens from Tulare County who are over the age of 18 will be solicited and accepted and the representatives will be selected by the other 13 seated Board members, subject to final approval by TCAG.

**Quorum**

- A Quorum will be no less than nine (9) members of the Committee
- An action item of the Committee may be approved by a simple majority of those present, as long as the quorum requirement is met.

**Term of Membership**

- Terms of membership will be for two (2) years. No member may serve more than 8 years
- Members may be reimbursed for authorized expenses, but not be compensated for their service on the Committee
- In an effort to maintain Committee member consistency, during the first two (2) years of the Committee, terms will be staggered with 8 of the members to serve a one-year term, 8 of the members to serve a two-year term. The length of the first terms will be determined via random selection.
- Proxy voting will not be permitted

**Eligibility**

- U.S. citizen 18 years of age or older who resides in Tulare County
- Not an elected official at any level of government
- Not a public employee at any State, County or local city agencies
- Must submit an annual statement of financial disclosure consistent with Fair Political Practices Commission (FPPC) rules and regulations and filed with the Authority

**Staffing**

- TCAG will staff the Committee and provide technical and administrative assistance to support and publicize the Committee's activities.
- TCAG services and any necessary outside services will be paid using the TCAG's Measure Administration Program revenues
- Expert staff will be requested to provide information and make presentations to the Committee, as needed

**Responsibilities**

The Committee may receive, review and recommend any action or revision to plans, programs, audits or projects that is within the scope of its purpose stated above. Specific responsibilities include:
- Receive, review, inspect, and recommend action on independent financial and performance audits related to the Measure
- Receive, review, and recommend action on other periodic reports, studies and plans from responsible agencies. Such reports, studies and plans must be directly related to Measure programs, revenues, or expenditures
- Review and comment upon Measure expenditures to ensure that they are consistent with the Expenditure Plan
- Annually review how sales tax receipts are being spent and publicize the results
- Present Committee recommendations, findings, and requests to the public and TCAG in a formal annual report to inform Tulare County residents how funds are being spent.
- The Committee will have full access to the TCAG independent auditor and will have the authority to request and review specific information, with the understanding that the Committee will rely upon data, processes and studies available from TCAG, and other relevant data generated by reputable sources. It is understood; that TCAG will be continuously striving to improve the reliability of data and to update analytical and modeling processes and that the Committee will be kept abreast of any such efforts, and is invited to participate in development of such updates in a review capacity.

The Committee will assist TCAG in taking advantage of changing situations with technical and transportation developments in the future. Therefore, the provisions regarding the Committee make up, processes and protocols are viewed through 2037 based upon a 2007 perspective, and are not meant to be unduly restrictive on the TCAG and the Committee's roles and responsibilities.
